

LIBBEY

new

TIKI, STILL GOING STRONG!

In addition to the Tiki range introduction, Libbey presents the new Tiki Stemware and Tiki Split! A mix of playfulness and sophistication that revive the historical and exotic cocktails.

Tiki are no longer just summertime drinks. Nowadays, people are enjoying them all year long. Meet Libbey's new Tiki stars!

Tiki Coupe & Tiki Mai Tai

Giving a playful theme that dash of sophistication

With its exuberant, playful designs, typical tiki glassware can sometimes look out of place in more upscale or conventional settings. But these exciting additions to our tiki range bring refinement to the tiki tradition without sacrificing its mysterious charms.

The Tiki Stemware pays homage to classic tiki designs and amber tones. The Tiki Stem Mai Tai, like its coupe counterpart, has an elegant stem that would be at home in even the most exclusive décors, adding a touch of Polynesian panache to any evening.

Tiki Split

Two faces, one perfect tumbler for tiki cocktails

Give a tropically warm welcome to a glass that is perfectly designed to capture all the elements making tiki such a hot theme in today's cocktail scene.

While most tumblers are straight, the curvaceous **Tiki Split** sits nicely in the hand. Thanks to its fine rim, straws (particularly the plastic kind) are no longer needed to enjoy your favorite tiki cocktail. The shape is also ideal for the ingredients of typical tiki cocktails, with their extravagant garnishes, audacious flourishes like smoke and fire, and ingredients that evoke sultry tropical evenings such as rum, tequila and pisco. The **Tiki Split** gets its name from its two faces: on one side there's the Polynesian icon's ferocious frown, but turn him round and he's all smiles!

The Tiki stemware and Tiki Split are great additions to Libbey's Tiki styled range and are available in boxes of 12 each in different capacities. Visit [Libbey Foodservice website](#) to find out more about it.

We are presently promoting the online *Mahalo-Ween challenge* in our [Glassology by Libbey community on Facebook](#), with [Daniele Dalla Pola](#) judging this great challenge. Do not miss it!
